Mohammad Saif Imtiyaj Rakhangji

Full Stack Developer | Building Innovative Web Solutions |
Continuous Learner
Mumbai Metropolitan Region

Summary

I'm a Computer Engineering student and Full Stack Developer passionate about building modern, scalable, and user-friendly web applications. I enjoy turning ideas into practical digital solutions and working across both frontend and backend development, with a strong focus on clean design, functionality, performance, and security. I'm continuously exploring web development, cybersecurity, software engineering, and emerging technologies to expand my technical knowledge and build better solutions. I believe in learning by building — solving real-world problems, experimenting with new technologies, and continuously improving through hands-on projects. Currently, I'm focused on strengthening my full-stack development skills and creating projects that combine great user experience with reliable and secure technology. I'm open to internships, freelance opportunities, collaborations, and innovative technology projects. Let's connect and build something meaningful.

Experience

CodSoft
Web Developer
May 2026 - August 2026 (4 months)

Udemy
Python Machine Learning
August 2025 - July 2026 (1 year)
Mumbai
